Something different...

Watch a film with the theme of belonging. We recommend "This Beautiful Fantastic" (PG) for the grown-ups, or "The Incredibles" (U) for families.

Some questions to ponder...

1. At what points in the film were there good relationships, and bad ones? How were the characters acting as family to one another?
2. What did the film have to say about family?
3. If the characters were in real life (!) what would you want to tell them?
4. How can our church on Sunday and midweek be more like family? Especially to those for whom their experiences of family life have been difficult or sad?
